

15 Important Steps for Being or Becoming A LumiCeutical Silver Ambassador

1. Use your lights regularly.
2. Be on or listen to the recording of the 3 training calls that we offer each week. A lot of information is shared during these calls and we don't want you to miss it and it helps us to not have to repeat it. We will make the first 30 minutes of each call power packed.
3. Facebook: Be a part of the facebook private group shine with light owners. This is a private group and you can even create a facebook page with an alias name and not friend anyone, but being on this page give you lots of access to important information. Like and follow the facebook business page of shinewithlight as well. Great resource of new information.
4. Know how to log in to the www.shinewithlight.com page member's section and check back there for the new resources that appear regularly so that you can guide someone on where to go to get their questions answered.
5. Know how to log in to the members section of www.shinewithlight.com and know what is back there so that you can send your owners there for more information when needed.
6. Know how to place a rental and place an order.
7. Know the top 7 handouts that we like to give our owners and be able to send them to people in your group.
8. Maintain an awareness of who is in your group and what their interests are for using and sharing light and how you can help facilitate those interests. For now we can give you a print out of your group and then please print or file the invoices we send you as new people come on board.

9. Be able to understand and communicate the basics of the commission plan.

10. Be able to know how to help someone get their products repaired - where to fill out an order service report and what to expect.

11. Be willing to offer meetings or help with conferences for people in your team.

12. Attend all leadership training meetings and educational series that we offer.

13. Be able to show someone how to use a 3 port and a 6 port and how to program changes in their software.

14. Download or make a hard copy of one of Marta's presentations and be able share your light story and to go thru a presentation with someone or a group.

15. Support and recognize that we are all on the light team "Shine With Light" regardless of who sponsored us. The profit sharing, Lumi point program clearly invites us to support each other with rentals, sales, conferences, meetings and moral support. When one of us wins, we all win. We do not have to be under the same sponsor to benefit from each other's sales and cooperation. If you do not understand this concept, you are missing the uniqueness and abundance of the LumiCeuticals Commission/profit sharing plan.
