LumiCeuticals Brochure

Feel Yourself Shine with Harmonic Light

Harmonic Light - The Ultimate Self-Healing Tool

Release Stress and Restore Vitality
 Your body can only hold so much stress. LumiCeuticals uses red light wavelengths at specific Harmonic Frequencies to help your nervous system relax and then stress is metabolized instead of being passed on to your body, mind, spirit, and soul.

Tune and Balance
 When coupled with the right light and frequency, your body is brought back to "tune" and into balanced health. LumiCeuticals' patented controller gives both the professional and home user the power to choose custom or pre-programmed waveforms to support a return to balance where the body's health is compromised.

Energize and Renew
 Research shows that the photobiomodulation wavelengths delivered by LumiCeuticals support cellular cellular performance from skin to brain to bone through:

- Increased energy (ATP)
- Increased respiration
- Enhanced risk factor reduction
- Increased collagen production
- Increased circulation
- Enhanced cell regeneration

Why People Love LumiCeuticals

These high system systems use the ability to work with individual genetic and cellular level information with personalized wave length capabilities.

— Dr. Nancy Green, Lightworks from Philadelphia, PA

Used regularly, these systems stimulate deep healing from the cellular level.

— Dr. Jeffrey L. Thompson

After using the LumiCeuticals system for several months, patients can feel a noticeable difference. By combining the use of the patented controller with the system, users can choose the wave length and frequency to support the system of cells, proteins, and the cellular environment needed. Light wavelengths are the only thing that can be passed on to the next generation.

— Dr. C. Lee

These wavelengths are used for treating a wide range of conditions.

— Dr. J. Miller

Three Great Ways to Experience Harmonic Light

- Receive Regular Sessions
- Have a Visit to your local Spa or Wellness Office
- Own a System for Daily Use Benefits
