# RENEW Facial Rejuvenator

Daily Anti-Aging Light Therapy

Red, Near infrared and Orange wavelengths.

Research has found that applying these wavelengths to the skin stimulates fibroblasts to produce collagen.

FDA over the counter (OTC) cleared for the treatment of fine lines and wrinkles.

Combine with additional pads to support increased circulation, cleansing and cell regeneration throughout the body including the liver, the skin's companion organ.

Can be used with the Flex 3, Grow6 or Pro6 Controller.

# Results

Reported Observations from The Therapeutic Learning Center Of Utah  
586 Patients of Nancy Foster PhD, APRN Using our Light Therapy Systems Spring 2014

- Typical patients experienced 20 minute B setting sessions of light once a week during the study time period. A minimum of 4 sessions was typical.
- 56 patients reported acceleration of the healing processes of wounds, burns, and skin issues like pustules.
- 148 patients reported 50 to 75% reduction in pain.
- 220 patients were able to discontinue their anti-depressant medication while under direct supervision.
- 20 patients that experienced social anxiety reported less isolation to home and increased motivation and ability to engage in family and church activities.

- 10 patients experiencing extreme anxiety and panic attacks, refractory to medications were prevented from having hospitalization.
- 6 patients with ADHD and experiencing learning problems reported increased focus, concentration, and memory. They also reported improved school grades and relationships. No medications used
- Results: In 4 B setting sessions: 18 patients, whose lab studies showed decreased Glutathione levels and associated debilitating fatigue showed 50 % increase in Glutathione and 15 to 25% increase in reported energy levels.
- Overall Dr. Foster and the licensed massage therapist that she has administer the light therapy, Ally Sanchez, found that our light systems gave them : “the ability to work with individual patients, multiple health issues, with unprecedented ease, speed and precision.”
