Shine With Harmonic Light

LumiCeuticals Light Instruments for Ultimate Self-Healing

Harmonic Light is an Optimal Environment that Supports the Body's Natural Ability to Heal, Regenerate & Thrive

Harmonic Light

Specific Wavelengths of Low Level Pulsed Light Applied to the Body, Mind & Spirit

Supports cellular repair & regeneration as the ultimate biological NUTRIENT

8

TUNES the mind, body and spirit to a more optimal harmonic resonance or vibratory frequency.

Comfortable & Non-invasive

Encompasses All Energetic Wellness Modalities & Compliments Massage Therapy Powerfully.

Light Emitting Diode Delivery LED evolved from Lasers

As light instruments, both low level lasers and LED delivery show effective results.

Harvard researchers have found advantages of LED delivery include

- No laser safety considerations
- Easy to use at home
- Ability to irradiate a large area of tissue or multiple areas of tissue at once
- Can go right on the skin, can even be worn.
- Economical

LED photobiomodulation, shining LED light instruments on the body to create positive change, "is effective and here to stay."

Relieve Pain, Improve Circulation & Enhance Recovery Medically Approved & FDA OTC Cleared

Increased Circulation and the General Temporary Relief of Pain & the Associated Effects of:

- Muscle/Joint Aches & Stiffness
- Arthritis Rheumatoid and Osteoarthritis
- Tendonitis Pain
- Muscle Spasms & Strains
- Back Pain
- Repetitive Use Injuries like Carpal Tunnel
- Increased Rate of Injury Recovery & Wound Healing
- Sports Injuries
- Neuropathy

"Man is essentially a being of light."

1974 – Albert Fritz Popp – Biophoton field.

"Every cell in the body emits more than 100,000 light impulses or photons per second.

This light has been found to be the steering mechanism behind all biochemical reactions."

The Body Is A Living Photocell

We Are Designed To Receive Light

1. Eyes - Reticular Activating System

2. Through the Skin - Transdermal From deep brain and bone.

3. In Our Field - Quantum Effect.

Receiving through the Eyes

A single photon hitting the back of the retina lights up the brain.

We <u>receive</u> light through our eyes into our light meter, the pineal gland.

Light synchronizes us with our natural world and consciousness.

The Pineal Gland

- Sleep Cycles
- Mood
- Hormones
- Intuition
- Memory
- Creativity
- Consciousness

Harmonic Light is Meditative

"When pathways are clear, flowing and carrying light information factors, the internal parasympathetic system is in control.

Thus, light therapies are a priori forms of meditation & healing."

Gary Buchanan - Sonatherapy

Reaching A Meditative State

* Effects of Meditation:

On: genes associated with energy metabolism

mitochondrial function

insulin secretion

telomere maintenance

Off: those involved in inflammation

*These effects were more pronounced and consistent for long-term practitioners.

- * IMPLICATIONS: People who practice simple meditation aren't "just relaxing," they're experiencing "a specific genomic response that counteracts the harmful genomic effects of stress."
- * CONCLUSION: "Do it for years," said researchers at the Benson-Henry Institute for Mind/Body Medicine at Mass Gen, "and then these effects are quite powerful in how they change your gene activity."

⁻ Benson-Henry Institute for Mind/Body Medicine at Massachusetts General Hospital and Beth Israel Deaconess Medical Center

Transdermal Application

Light travels into the body to dramatically affect our performance & well being.

Blue: Studies show that it is cleansing and supports skin and liver health, collagen, Mood calming, reduces inflammation, calms nervous system, Auto-Immune support, Anti-Pathogenic.

Green: Studies show that it comforts pain, lowers inflammation, enhances immunity, long lasting stress reduction, Anti-infection. Great for Liver, Lungs, Thymus, Immune System.

Red: Studies show that it increases circulation, nitric oxide, production of ATP, promotes cell regeneration, aids in detoxing the cell and decreases inflammation and supports soft tissue, muscle including the heart and brain.

Near Infrared: Research shows that it supports hard and soft tissue, bones, joints, tendons, teeth. Increases the production of Nitric Oxide, reduces pain and inflammation, supports lymphatics and brain. Increases cell regeneration.

"The Function of our Entire Metabolism is Dependent on Light "

Albert Fritz Popp

Light & Energy Production

LIGHT = The Ultimate Biological Nutrient

- Light donates photons to cells that need energy
- Photons increase the production of ATP (150%)
- Adenosine Triphosphate, or ATP, is the energy of the cell
- ATP energy governs 80-90% of the cells' activities

Light & Oxygen

Oxygen

- * A cleaner that assists immune system, cell signaling and homeostasis balance in the body.
- * Too much ROS, Reactive Oxygen, can be damaging
- * UV and excess Heat can create too much ROS.
- * Applying the right light to the body "triggers the production of reactive oxygen species... without inducing DNA damage"

Light & Alkalinity

"Cancer grows in oxygen deprived acidic tissue."

"Disease cannot thrive in an alkaline body."

Dr Otto Heinrich Warburg

Winner of the 1931 Nobel prize in Physiology

Light & Circulation

What is Nitric Oxide?

A signaling molecule produced in the endothelial cell linings along 100,000 miles of blood vessels and capillaries in the human body.

The Nobel Prize was awarded in 1998 for understanding its roles.

Role Of Nitric Oxide

Decreases pain

Keeps blood vessels open, elastic and functioning properly

Lowers Blood Pressure

Increases Oxygen Levels Throughout The Body

Ensures Blood Flow To The Brain

Increases energy production

Stimulates collagen production

Defends Against Tumor Cells

Decreases Numbness

Increases Lymphatic Activity

Kills bacteria

Increases blood flow and prevents the build up of plaque in the arteries

Studies Have Found That Nitric Oxide

- Protects against GI ulcers
- Protects against Alzheimer's
- Prevents male pattern baldness & E.D.
- * Prevents early stages of Atherosclerosis
- Prevents vascular complications of Diabetes
- * Improves heart function whether slower or faster by carrying oxygen in and carbon dioxide out.
- * Stimulates body to release Human Growth Hormone (HGH)
- * Improves Immune System Function
- Improves Cardiovascular Activity

"I have come to see Nitric Oxide as the physical expression of Prana - your life force. It is the "Wow" molecule that continually resets our ability to connect body, mind, heart, and spirit. To activate this, we need to care for ourselves with plenty of sleep, exercise, life-giving foods, letting go of resentment, and opening up to affirmation and love." {Christiane Northrup, M.D.}

REGENERATION IN THE BRAIN

Harvard Medical School - Cellular Health & Light

- Traumatic Brain Injury: Low-level light ... for effective therapy of injured brain.
 Vascular damage occurs frequently at the injured brain. "Strikingly, these adverse events were reversed significantly by noninvasive exposure of injured brain to low-level light (LLL). "

"I am loving the Lumi for both myself and my patients. I have helped one 80 year old lady regain her memory and have less falls with Syntonics and LumiCeuticals light sessions using 40hz for 24 sessions."

- Dr. Fern Fujimoto, OD.

Studies Showing Restoration & Regeneration in the Eyes

- How red and near infrared light are helping the brain repair faster from <u>Strokes</u> and <u>TBI</u>
- How Red Light application is protective to the eye, including possibilities with dry eye.
- How Red Light is recharging aging eyes
- How light is combating dry, age-related AMD, decreasing drusen
- How light is inhibiting damage from retinal neuropathy.

"I have a lot of eye patients referred to me by a local optometrist. All, yes - ALL - of the patients he sends me are having improvements in vision, and everyone who's been back to the optometrist is dialingback their eyeglass prescriptions, and showing improvements on retinal scans. As in: no lesions or significantly less, and significantly healthierlooking lenses and retinae. Also without exception is that we can report, subjectively and objectively, noticeable improvements in vision in every in-office Lumi session." - Dr. Ritz, ND

Skin Rejuvenation

Studies have shown that Light

- * Repairs, Renews, Regenerates Skin Cells
- * Stimulates Collagen Production = younger looking, more plump skin.
- * Reduces the Appearance of Wrinkles, Diminishes Scarring, Shrinks Pores, Reduces Discoloration, and Speeds up the Healing Time of Blemishes.
- * To help stop or reverse sun damage, Dr. Sarnoff and The Skin Cancer Foundation recommend the following:
 - "Try a light-emitting diode (LED) A lower energy LED can help promote collagen production and reduce fine lines and wrinkles."

Reported Results

Self-Reported Observations from The Therapeutic Learning Center Of Utah 586 Patients of Nancy Foster PhD, APRN Using our Light Therapy Systems Spring 2014

- * Typical patients experienced <u>one 20 minute B setting sessions of light once a</u> <u>week</u> during the study time period. A minimum of 4 sessions was typical.
- * 56 patients reported <u>acceleration of the healing processes of wounds</u>, <u>burns</u>, <u>and skin issues</u> like pustules.
- * 148 patients reported 50 to 75% reduction in pain.
- * 220 patients were able to <u>discontinue their anti-depressant medication</u> while under direct supervision.
- * 20 patients that experienced social anxiety reported less isolation to home and increased motivation and ability to engage with family and church.

 10 patients experiencing <u>extreme anxiety and panic attacks</u>, refractory to medications <u>were prevented from having hospitalization</u>.

 6 patients with ADHD and experiencing <u>learning problems reported</u> <u>increased focus, concentration, and memory. They also reported</u> <u>improved school grades and relationships</u>. No medications used

- Results: In 4 B setting sessions: 18 patients, whose lab studies showed decreased Glutathione levels and associated debilitating fatigue <u>showed 50</u>
 <u>% increase in Glutathione and 15 to 25% increase in reported energy levels.</u>
- Overall Dr. Foster and the licensed massage therapist that she has administer the light therapy, Ally Sanchez, found that our light systems gave them: <u>"the ability to work with individual patients, multiple health</u> <u>issues, with unprecedented ease, speed and precision."</u>
